EDUCATION

- **The Hong Kong Polytechnic University** Hong Kong, China
PhD in Computer Science Sep 2024 - Present
 - **Supervisor:** Prof. Qing Li and Prof. Chen Jason Zhang
 - **Thesis Topic:** Building User-Centric AI Assistants: Evaluation, Alignment, and Scalable Deployment
- **The University of Nottingham** Nottingham, UK
BSc (Hons) Mathematics and Data Science Sep 2021 - Jun 2024
 - **Grade:** First Class Honours (GPA: 3.98/4)
 - **Awards:** Faculty Best Student Award (top 1%), Dean's Excellence Scholarship Award (top 1%)

RESEARCH EXPERIENCE

- **Yuanbao Team, Tencent** Shenzhen, China
Project UP (Qingyun) Intern Mar 2026 - Present
 - **Research Focus:** user-centric AI, LLM evaluation and benchmarking, reward models
 - Developed an automated data flywheel from online service logs to support the eval-to-train development cycle.
 - Led the research team on user-centric benchmarking, releasing UXBench (first & corresponding author), a highly influential research paper on user experience benchmarking.
- **AI Group, WeBank** Shenzhen, China
NLP Research Intern Jun 2024 - Oct 2025
 - **Mentor:** Prof. Di Jiang (Chief Scientist)
 - **Research Focus:** large language models, dialogue data mining, customer service systems
 - Contributed to the R&D of next-generation customer service systems and vertical domain benchmarking.
 - Proposed a novel LLM-in-the-loop paradigm for cost-efficient, zero-hallucination service systems
 - Delivered three production-ready systems and published five research papers at top-tier conferences.
- **President's Office, Luckin Coffee Inc.** Beijing, China
Strategy Analyst Intern Jun 2023 - Sep 2023
 - **Research Focus:** data-driven enterprise solutions, market data analysis, retail services
 - Proposed a data-driven five-year development roadmap for the company's overseas expansion strategies.
 - Developed data automation systems to manage large-scale retail databases and extract market insights.

PUBLICATIONS

Full publication list available on [Google Scholar](#).

- **Orchestration-Free Customer Service Automation: A Privacy-Preserving and Flowchart-Guided Framework**
Mengze Hong, Chen Jason Zhang, Zichang Guo, Hanlin Gu, Di Jiang, Li Qing. *TheWebConf 2026* **Oral**
- **Multimodal Peer Review Simulation with Actionable and Community-Aware To-Do Recommendations**
Mengze Hong, Di Jiang, Weiwei Zhao, Yawen Li, Yanjie Sun, Chen Jason Zhang. *TheWebConf 2026* **Demo**
- **CiteLLM: An Agentic Platform for Trustworthy Scientific Reference Discovery**
Mengze Hong, Di Jiang, Chen Jason Zhang, Yawen Li, Shaobo Cui, Zhiyang Su. *TheWebConf 2026* **Demo**
- **Federated Heterogeneous Language Model Optimization For Hybrid Automatic Speech Recognition**
Mengze Hong, Yi Gu, Di Jiang, Hanlin Gu, Chen Jason Zhang, Lu Wang, Zhiyang Su. *ICASSP 2026*
- **Dial-In LLM: Human-Aligned LLM-in-the-loop Intent Clustering for Customer Service Dialogues**
Mengze Hong, Wailing Ng, Chen Jason Zhang, Yuanfeng Song, Di Jiang. *EMNLP 2025*

- **QualBench: Benchmarking Chinese LLMs with Localized Professional Qualifications**
Mengze Hong, Wailing Ng, Chen Jason Zhang, Di Jiang. *EMNLP 2025*
- **Augmenting Compliance-Guaranteed Customer Service Chatbots with Context-Aware Knowledge Expansion**
Mengze Hong, Chen Jason Zhang, Di Jiang, Yuanqin He. *EMNLP 2025*
- **Dialogue Language Model with Large-Scale Persona Data Engineering**
Mengze Hong, Chen Jason Zhang, Chaotao Chen, Rongzhong Lian, Di Jiang. *NAACL 2025*
- **InfantCryNet: A Data-driven Framework for Intelligent Analysis of Infant Cries**
Mengze Hong, Chen Jason Zhang, Lingxiao Yang, Yuanfeng Song, Di Jiang. *ACML 2024*

UNDER REVIEW / PREPRINT

- **UXBench: Benchmarking User Experience in AI Assistants**
Mengze Hong, Zeng Xia, Zeyang Lei, Sheng Wang, Chen Jason Zhang, Di Jiang, et al. (arxiv, 2026)
- **LLM-in-the-Loop: Replicating Human Insight with Instruction-tuned Large Language Models**
Mengze Hong, Di Jiang, Chen Jason Zhang. (arxiv, 2025)
- **Retrieval Augmented Learning-To-Match Against Hallucination in Compliance-Guaranteed Service Systems**
Mengze Hong, Di Jiang, Chen Jason Zhang. (arxiv, 2025)
- **From Pipelined to Agentic: A Survey on LLM-Driven Task-Oriented Dialogue Systems**
Mengze Hong, Di Jiang, Lu Wang, Chen Jason Zhang. (arxiv, 2025)

MEDIA COVERAGE

I have served as an invited columnist for **Wen Wei Po** (HK newspaper), writing on AI, fintech, and digital innovation. Representative articles include:

- Technical Trends and Insights From the AI Trading Competition – Alpha Arena (Dec 2025)
- From Blackbox to On-Chain: Decentralized Intelligence Leads the Future (Nov 2025)
- Financial LLMs in Web3: Empowering a Decentralized Future (Sep 2025)

INVITED TALKS

- **Hong Kong's New Web3 Era: How Stablecoins, RWA, and DeFi are Transforming the Future of FinTech**
Research Seminar, Za Bank and HKU
- **Applying AI in Accounting and Finance: Digital Transformations in Future Practice**
Workshop, Faculty of Business, PolyU
- **Large Language Model Driven AI Chatbots and Virtual Avatars in Hospitality and Service Sectors.**
Guest Lecture, School of Hotel and Hospitality Management (SHTM), PolyU
- **AI Meets Web3: How Emerging LLM Technologies Will Transform Our Lives?**
Podcast, HashKey Group
- **From Concept to Reality: Blockchain Applications in Supply Chain, Healthcare, and Hospitality.**
Guest Lecture, Innovative Experience Design, PolyU

PROFESSIONAL SERVICES

- **Teaching Assistant:** COMP6708 Advanced Big Data Computing (PhD-level), COMP3134 Business Intelligence and Customer Relationship Management (undergraduate-level)
- **Reviewer:** ACL, EMNLP, NAACL, ACM MM, ACML
- **Session Chair:** TheWebConf 2026 Industry Track
- **Consultation:** Served as a senior consultant for HashKey Exchange (HK-listed), delivering AI literacy seminars, digital transformation workshops, and monthly industry reports for the Chief Analyst.
